# BAILEY POWER PLANT AT INNOVATION QUARTER

The first phase of the Bailey Power Plant is a 110,800 SF redevelopment of the former RJ Reynolds Tobacco Company's coal-fire power plant. Located in the epicenter of the Innovation Quarter, the Bailey Power Plant is Wexford Science & Technology's sixth project. Bailey Power Plant brings Wexford's redevelopment total to more than one million square feet, with more than \$450 million in investment. The success of the Innovation Quarter is noticed through full occupancy of every facility with dozens of innovative companies including Wake Forest University Health Sciences, Wake Forest School of Medicine, Wake Forest University, Inmar, Mullen Lowe and Forsyth Tech Center for Emerging Technologies.

## WHAT IS INNOVATION QUARTER?

Innovation Quarter is one of the fastest-growing urban-based districts for innovation in the United States. Home to more than 70 companies, five leading academic institutions, more than 3,200 workers and over 7,500 students and workforce trainees, the Innovation Quarter is a place for research, business and education in biomedical science, information technology, digital media, clinical services and advanced materials. The Innovation Quarter currently comprises 1.8 million square feet of office, laboratory and educational space on its 145 developable acres. In addition, there are approximately 800 apartments and condominiums within or close by.
