L | T THE OFFERING

Linville Team Partners, on behalf of the ownership, is pleased to exclusively offer the opportunity to purchase the Liberty Plaza Office Building (the Property), a potential **OPPORTUNITY ZONE INVESTMENT** located in the City of Arts and Innovation, Winston-Salem, North Carolina. At 63% occupancy, the Property consists of a fourteen-story office building located at 102 West Third Street, totaling approximately 200,452 rentable square feet. The improvements were built in 1973 and are situated on approximately 2.49 acres of land in the urban core. The subject also includes an adjoining parking deck containing 652 parking spaces.

Liberty Plaza Office Building is located in the Central Business District, which is the single largest employment center in the Piedmont Triad

region. The major office area is home to several distinct sub-areas: government, corporate, health & technology, arts & innovation, specifically Innovation Quarter, with more than \$2.1 Million developed square feet of retail, office, and medical. The growth of Innovation Quarter has seen an accompanying boom in the number of ancillary businesses moving into the rest of the downtown community. Its growth in the health and life sciences fields have resulted in a great deal of investment in our downtown, including Atrium Health's pledge of \$600 Million for research to take place primarily in Winston's downtown. The impact of this investment and growth cannot be overstated and make this a prime opportunity to invest in our growing community.

INVESTMENT SUMMARY

LIBERTY PLAZA

INVESTMENT THESIS

Downtown Winston-Salem, having received a great deal of recent national attention, is at the apex of its potential for investment at the “ground level.” A new ownership group has the opportunity to run this asset more efficiently and capitalize on the growing Winston-Salem market at the cost of a property in a less-developed market.

OFFERING HIGHLIGHTS

- Extensive Capital Improvements
- Below Market Rent
- Newly Redeveloped Submarket of CBD
- Below Replacement Cost
- Rebranding Opportunity
- Oversized Parking Deck Income

THE UPSIDE

VALUE ENHANCEMENT

Thanks to extensive recent capital improvements, Liberty Plaza is poised to leverage increasing interest in the submarket. With 72,596 SF of vacancy available, significant upside can be found in leasing the remaining vacancy, while re-signing current tenants, some of which are month-to-month, at a higher rate for considerable yield enhancement in the future. In-place rents are currently well below market. Enhance value by targeting small to medium sized office users that reflect the new growth and expansion of activity in downtown Winston-Salem. Within Winston-Salem and the larger Piedmont Triad community, users in a variety of sizes are what create a vibrant community and redeveloping submarket. The addition of the adjacent state of the art children's museum alone has brought an influx of visitors to downtown and the included parking deck is their best offer for convenient parking. Additionally, Liberty Plaza is located in an Opportunity Zone, allowing ownership to capitalize on corresponding tax benefits.

SURROUNDED BY

Liberty Plaza Office Building is central to the downtown core, surrounded by a number of other large users, mutual redevelopment efforts, and over 2 billion investment dollars. Many users of which support the same industries as the property's tenant mix: government, health & technology, and arts & innovation. In addition to the growth that has already occurred in Winston-Salem, the area immediately surrounding Liberty Plaza has recently been transformed with the brand new Kaleideum children's museum immediately adjacent to the property, a newly installed city park at the front entrance of the building, and Merschel Plaza, another urban park directly across the street. HanesBrands Inc. is also moving their corporate headquarters to the proximal Park Building in early 2025, bringing an additional 400 workers to the submarket. The property is also minutes from Innovation Quarter, a nexus of science and lifestyle, with over 2.1 million square feet developed. The access to interstates, wealthy suburban neighborhoods and the booming downtown multi-family market make it a highly desirable place to live, work, and play. Liberty Plaza boasts one of the best proximities to surrounding restaurants, shops, and other retail opportunities which has become a consistent trend in urban office leasing.

WELL BELOW REPLACEMENT COST

Liberty Plaza Office Building can be purchased well below the cost to construct similar buildings and parking decks in today's market. With cost of construction continuing to rise significantly, replacement cost is estimated to be approximately \$300-\$350 PSF for urban office product in Winston-Salem; offering major upside potential, income-producing parking, and an excellent location surrounded by a "re-birth" of the downtown market. Views of downtown, natural lighting, opportunity for new retail, downtown's new economic development efforts, collaboration with Kaleideum children's museum and hotel parking, and repositioning and renaming of the assets are all players in the upside.

WELL-LOCATED & ACCESSIBLE

The Property is well located in the CBD, framed by 1.9 million SF of office space, 1,400 businesses in downtown's core and over \$2 billion invested in downtown redevelopment. In addition, the plaza features a new, city-funded outdoor setting for leisurely activities before, during, and after work hours. The property is planted in the downtown core, with exceptional access to I-40 and the new Salem Parkway & both PTI and Smith-Reynolds Airport. Amenities include over 70 shops and galleries, over 75 dining and entertainment establishments including 7 breweries, the new construction of downtown hotels, Merschel Park & Kaleideum children's museum, Old Salem, Stephen's Center, Benton Convention Center, minor league baseball & six universities.

Also surrounding Liberty Plaza Office Building are a number of high-end residential neighborhoods & a number of new and existing multi-family properties, with more than 5,500 units. The Winston Salem market has effectively evolved from a textile manufacturing-based economy to one based on a variety of industries involving health & technology and arts & innovation. While manufacturing remains an important component of the local economy lead by nationally recognized companies like Reynolds American and HanesBrands, health & small business incubation also play important roles.

FLEXIBLE EXIT STRATEGY

The opportunity offers enormous upside potential. A new owner will be able to rebrand and rename the building and gain a greater NOI and presence in the rapidly expanding Winston-Salem market. There also is the opportunity to invest in minor improvements and sell off the parking deck individually or the entire asset for a gain. Opportunities exist to enhance a sense of community and connectivity for the Liberty Plaza. Opportunity also exists for a long-term hold as our new economic development plans are rooted in downtown Winston Salem.
